After listening to the concerns and issues from many LPG Vendor Licensees and by South Dakota Petroleum and Propane Marketers Association Executive Director, Dawna Leitzke, the South Dakota Division of Motor Vehicles has removed the schedule requirement for agriculture exempt use (line 2). In the agriculture exempt line item you are now able to enter a total gallon figure.

The E-path return form has been updated with this change and is now available. In order to move forward with having all motor fuel tax returns available for filing electronically, you will be required to file the January LPG Vendor return through E-Path due February 23, 2016.

As we work through the transition of filing electronically, we welcome any comments or suggestions for improvements. The South Dakota Division of Motor Vehicles will revisit the LPG Vendor return process at a later time to evaluate its success or need for change.

Please share this letter and information with anyone responsible for filing tax returns, schedules and/ or payments for South Dakota motor fuel taxes.
