Motor Vehicle Sales and Purchases

March 2020

The purpose of this Tax Fact is to explain how South Dakota state and local taxes apply to motor vehicle dealers. It is not intended to answer all questions that may arise. The information contained in this fact sheet is current as of the date of publication.

Motor Vehicle Sales and Purchases

With few exceptions, the sale of products and services in South Dakota are subject to sales tax or use tax. One exception is the sale or purchase of a motor vehicle which is subject to the motor vehicle excise tax.

- Dealers are not required to collect or pay the motor vehicle excise tax on motor vehicles they sell.
- Dealers are required to collect the state sales tax and any applicable municipal sales tax, municipal gross receipts tax, and tourism tax on any vehicle, product, or service they sell that is subject to sales tax in South Dakota.

Motor vehicles are not subject to the motor vehicle excise tax if:

The purchaser requests and is approved for a title only included in [SDCL 32-3-4](#).

- In limited situations, a purchaser may obtain a title without payment of the motor vehicle excise tax. This only applies to vehicles that will not be operated on streets and highways or waterways of South Dakota or any state and must be hauled or transported to their destination.
- The purchaser must request the title only tax exemption within 45 days of the date of purchase and prior to a title being issued.
- Only certain vehicles qualify for a title only. For a list of approved vehicles, see page 59 of the [Motor Vehicle Procedure Manual](#). Contact your County Treasurer with questions or to apply for a title only.
- Vehicles approved for a title only are subject to use tax.
 - The purchaser is responsible for contacting the Department of Revenue to pay the 4.5% state use tax, plus applicable municipal use tax.
 - Use tax is not due if the vehicle is purchased from a person and not from a business.
 - All sales of vehicles by auction are subject to either sales or use tax or motor vehicle excise tax unless exempt under [SDCL 32-5B-2](#).

The vehicle is exempt from motor vehicle excise tax under [SDCL 32-5B-2](#).

- Motor vehicles exempt from the motor vehicle excise tax under [SDCL 32-5B-2](#) are also exempt from sales tax.
- This includes the following (see [SDCL 32-5B-2](#) for a complete list):
 - Any motor vehicle sold or transferred that is eleven or more model years old and which is sold or transferred for \$2,500 or less before trade-in;
 - Any motor vehicle transferred as part of the sale of the assets of a LLC, corporation, or a limited or general partnership if the motor vehicle was previously titled, licensed, and registered in South Dakota;
 - Any motor vehicle repossessed by a secured party or lien holder in satisfaction of the debt;
 - Any damaged motor vehicle transferred to an insurance company in the settlement of an insurance claim;

Dealer Fees and Purchase Options with the Sale of a Vehicle

All optional services and products a customer may purchase are taxable unless specially exempted.

A dealer may purchase and install optional products that become part of the motor vehicle for resale. See the table to the right for examples.

Examples of optional services and products that are exempt from sales, use, and motor vehicle excise tax:

- Interest Charges
- Credit Life & Disability Insurance (subject to insurance premium tax)
- GAP Insurance (subject to insurance premium tax)
- Mechanical Breakdown Insurance (subject to insurance premium tax)

Commissions for Loans

Commission or fees you receive for arranging a loan between the buyer of your product and a lending institution are not subject to sales tax. This includes fees received for arranging loans for a customer's purchase of a motor vehicle.

Delivery and Handling Fees

The retailers' charge for delivery is subject to the same state and municipal sales tax rate as the product or service sold. If the product or service sold is not taxable, the delivery charge is not taxable. The same is true if a dealer hires a transportation company and bills the customer for the transportation service, the transportation charge is subject to the same tax as the product sold, as long as it is done at the time of purchase.

Delivery charges include any charge for transportation, shipping, postage, handling, crating, and packing.

When a shipment contains taxable and nontaxable products, sales tax is due on the portion of the delivery charge for the taxable products. This is determined by using a percentage of the sales price compared to the total sales or a percentage of the weight of the taxable products compared to the total weight of all products in the shipment.

Examples of Optional Products and Customizing that can be Purchased for Resale:

- Bed Liners
- Bug Shields
- Crystal Fusion
- Customized Paint Decals
- Electric MV Connector
- Floor Mats
- LoJack
- Mirror
- Polyshield
- Running Boards
- Seat Covers
- Starter Interrupter Devices Theft Etch
- Windshield Enhancements

Examples:

1. A parts store ships a part to a customer in rural Minnehaha County for \$200 plus \$20 delivery.
 - The parts store owes state sales tax on \$220. No municipal sales tax is due because the customer takes possession of the part outside the city limits.
2. Jones Auto sells and delivers the following items to Fred's Farm Store in Pierre: Two tires for resale for \$1000 and one tire display rack for use by Fred for \$1000. Jones bills Fred \$2000 plus \$200 delivery. Fred gave Jones an exemption certificate for the two tires.
 - Jones charges state sales tax plus Pierre municipal sales tax on \$1,100 (\$1000 for the display rack plus \$100 shipping). Taxable shipping was determined by dividing the taxable products by the total sale ($\$1000 / \$2000 = 50\%$). 50% of the shipping is taxable ($\$200 \times 50\% = \100).

Warranties, Insurance, and Service Contracts

Manufacturer's Warranty

Parts and labor furnished to fulfill a warranty obligation of the manufacturer are not subject to sales tax. Your receipts from the manufacturer for warranty work are not taxable. You do not owe use tax on parts taken from inventory to complete work under a manufacturer's warranty, this does not include warranty software.

Receipts from the customer or manufacturer for items not covered by the warranty are subject to sales tax.

If the manufacturer's warranty states:	Sales Tax or Use Tax Due
No cost to customer for parts	No sales tax or use tax due on the parts
Customer is responsible for a percentage of parts and labor	Sales tax due on the amount charged to the customer
Customer pays a deductible for parts or labor	Sales tax due on the amount charged to the customer
Customer is responsible for the repair labor	Sales tax due on the amount charged to the customer
The manufacturer furnishes you the repair part at no charge	No sales tax or use tax due on the repair part
The manufacturer pays you for the repair part	No sales tax or use tax due on the repair part
The manufacturer pays you for the repair labor	No sales tax or use tax due on the repair labor

Extended Service Contracts (Extended Warranty)

Extended service contracts that cover unexpected repair costs are subject to the motor vehicle excise tax when sold at the time of the vehicle purchase.

Extended service contracts sold later are subject to sales tax. Sales tax applies where the extended service contract is delivered to the customer. If customer takes possession at the dealer, the tax rate is based on the dealer's location. If the extended warranty is mail to the customer, the tax rate is based on the customer's mailing address.

Mechanical Breakdown Insurance

Insurance policies are not considered warranty or service contracts. Insurance premiums are not subject to sales tax; however, the premiums are subject to insurance premiums tax. All charges made to the insurance company for parts and labor are subject to sales tax.

If you do not know if a service contract is insurance or not, you may contact the [South Dakota Department of Labor, Insurance Division](#) and ask if the company that sells the contract is a licensed insurance company, or call the Department of Revenue at 1.800.829.9188.

Implied Warranty

If you do not charge for repairs made to a customer's motor vehicle after the sale and those repairs are not covered by a written warranty, you owe use tax on the cost of all parts installed in the customer's vehicle. You do not owe use tax on your employee's labor.

- Axles
- Car Dollies
- Log Splitters, Tree Chippers, Stump Grinders
- Small Pull-Type Cement Mixers
- Tar Pits
- Welders
- Jeep Boosters
- Street Sweepers

Mounted Equipment

A dealer may add mounted equipment to a vehicle prior to a sale or include the equipment with the sale but add the equipment later. Sometimes a customer may buy the mounted equipment from a separate dealer. The tax that applies depends on when the customer buys the equipment.

- Mounted equipment sold with the vehicle or included in the sale price of the vehicle is subject to the motor vehicle excise tax and is not subject to sales tax. The dealer may install the equipment before or after the sale. This applies to new or used motor vehicles and new or used mounted equipment.
- Mounted equipment sold separately from the vehicle and added after the sale of the motor vehicle, is subject to sales tax or use tax. Sales tax or use tax also applies to installation charges.

Examples of mounted equipment are truck boxes, hoists, digger equipment, and cherry pickers.

Mounted medical equipment is not subject to motor vehicle excise tax when the applicant shows proof of prescription.

Examples:

1. Smith buys a truck chassis for \$12,000. Smith then buys a cement mixer and has it mounted on the truck.
 - The \$12,000 is subject to motor vehicle excise tax.
 - The mixer and installation charges are subject to sales tax.
2. James buys a truck chassis for \$12,000 and a cement mixer for \$8,000 from a dealer. Both are listed on the motor vehicle purchase agreement. The Dealer installs the cement mixer on the truck. James pays \$20,000.
 - The truck and cement mixer are subject to the motor vehicle excise tax.

Sourcing - Which Taxes Apply?

Example:

Smith buys a 50cc moped from a dealer in Sioux Falls and has it delivered to Mitchell. Smith provides the dealer with the delivery information.

- The dealer should collect and remit state sales tax and Mitchell municipal sales tax because the dealer delivered the moped to Mitchell.

Sales tax applies where the customer receives the product or service. Receive means where the customer takes possession of the product.

Products purchased, repaired, or serviced that are picked up at the seller's shop are taxed at the shop's location.

Products the seller delivers, with their vehicle or by a delivery company, are taxed at the delivery address.

When a shipping company is hired, sales tax is owed based on the delivery address. The shipping company should give the seller documentation showing the delivery address.

Products or services delivered to locations outside South Dakota are not subject to South Dakota sales tax. The seller must keep documentation of the address used to determine tax.

Driving Services

Fees charged for driving a motor vehicle from one location to another are subject to sales tax or use tax. Sales tax applies based on the location to which the vehicle is driven.

For example, if a person drives a car from Highmore to Pierre for hire, the state and municipal (Pierre) sales tax or use tax is due.
