# Use Tax - Individual

The purpose of this Tax Fact is to provide general guidelines to individuals on how to remit use tax on products and services in South Dakota. It is not intended to answer all questions that may arise. The information contained in this fact sheet is current as of the date of publication.

May 2019

## What is Use Tax?

The South Dakota use tax is the counterpart of the South Dakota sales tax. The two taxes apply to the sale of the same products and services, have the same tax rates, and have similar laws. The difference is in how the taxes are applied. Use tax applies when state and applicable municipal sales tax has not been paid on products and services (including products and services transferred electronically) that are used or consumed in South Dakota.

## When is Use Tax Owed?

Use tax is owed if:

- sales tax was not paid at the time of purchase; or
- the sales tax paid to another state was less than South Dakota's sales tax rate. The difference is owed when the product enters or the service is used in South Dakota.
  - ⇒ Credit is given for purchases with tax due and paid in another state. A receipt or invoice showing the amount of tax paid must be kept as documentation.
  - ⇒ If use tax is due, click [here](#) to submit a use tax payment online.

Use tax is due on the full purchase price, including delivery charges, or other fees, when the product is received or removed from inventory. Applicable municipal sales and use tax rates are based on the location the product or service is received.

- The purchaser or consumer is responsible for reporting and remitting the use tax.
