The FY2023 South Dakota Department of Revenue Annual Report is available in the "publications" section on the department's website at dor.sd.gov. The online report will be considered the most up-to-date and accurate version. Any corrections or modifications made to the report after the print version is issued will be noted in the online version on this page, along with a description of the correction or update.

State (SDCL ch. 20-13) and federal (Title VI of the Civil Rights Act of 1964, the Rehabilitation Act of 1973 as amended, and the Americans with Disabilities Act of 1990) laws require that the Department of Revenue provides services to all people without regard to race, color, creed, religion, sex, disability, ancestry, or national origin. The South Dakota Department of Revenue 2023 Annual Report is written and designed to make information accessible to the general reader. One hundred seventy-five copies of this document were printed at a cost of \$3.88 per document.

A Message From Secretary Houdyshell

I am eager

to continue our work on Revenue's strategic goals as we fulfill our mission to the citizens of South Dakota. DOR employees play a significant role in strategic planning, and they regularly provide innovative ideas to improve the work we do. Their dedication is what leads to a successful department. To the Honorable Governor Noem, the South Dakota Legislature, and my fellow South Dakotans,

I am pleased to report a truly successful year for the Department of Revenue (DOR) that supported our mission to provide fair, efficient, and reliable revenue administration with our partners to help fund public service statewide.

Our team at DOR hit the ground running for another year, which included another busy legislative session for the department. All of our division leaders provided invaluable information to legislators and stakeholders alike. Several new laws implemented directly impacted the DOR, most notable HB1137. This temporary reduction decreased South Dakota's sales and use tax rate from 4.5% to 4.2% effective July 1, 2023.

As the economy continues to evolve, our team will work hard to ensure that our laws provide equitable treatment for taxpayers, main street South Dakota businesses, and multistate corporations across the nation. We remain focused on customer service and providing free educational opportunities on a variety of topics. Visit us online to register for upcoming seminars or to connect with us for assistance. We are here to help!

As we look forward to another successful year, I hope you enjoy our Fiscal Year 2023 Annual Report!

Secretary Michael Houdyshell

2021-2024 DOR Strategic Plan

Strategic Goals

Collaboration

Increase the amount of collaboration between DOR Divisions in order to maximize the value of our resources and knowledge to provide the best customer service possible.

Employee Engagement

Ensure that DOR has an engaged workforce who feels that DOR is the best possible place to work and to develop professionally.

Stakeholder Education

Ensure that all DOR stakeholders, internal and external, understand the services that DOR provides and how to access them.

Technology Optimization

Ensure that all current DOR technology systems are being used to their fullest potential, and that we are planning effectively for future technology investments.

Core Values

Mission

Vision

Serving South Dakota to provide fair, efficient, and reliable revenue administration with our partners to help fund public service statewide.

Communication

It is critical to our success that we are able to communicate honestly and effectively with the public, our stakeholders, and each other.

Integrity

We pride ourselves in being accountable to our stakeholders and partners, and trustworthy stewards of public dollars.

Public Service

We are committed to providing consistent service to every customer every time, and are willing to be adaptable to facilitate this.

Professionalism

We carry out our work with fairness, courtesy, and respect for our customers, stakeholders and each other.

Throughout Fiscal Year 2023, our staff at the Department of Revenue collaborated to continue to implement the strategic plan. Taking the four strategic directions into account in the work being done.

To create a collaborative and professional environment that contributes to the long-term fiscal health of South Dakota and empowers our team to be adaptable and provide excellent customer service

50-State Comparison

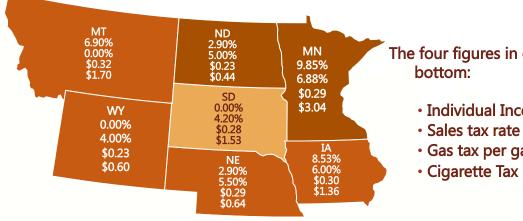

The three figures in each state are, top to bottom:

- Sales tax rate
- Gasoline tax per gallon
- Cigarette tax per package

The gradient represents each state's tax burden per capita -- the darker the color, the higher the burden. Local tax rates are not included unless mandatory. Data is provided by the Federation of Tax Administrators and as shown on individual government websites.

Tax Revenue Summary

The Department of Revenue is the principal tax collection agency for the State of South Dakota and collects a number of different taxes and fees. These revenues are grouped into four main categories: sales, use, and contractor's excise taxes; motor fuel taxes; motor vehicle fees and taxes; and special taxes. Once collected, these revenues are distributed to three primary locations: the state general fund, local units of government, and the state highway fund.

(1) The first \$30 million collected annually is deposited in the state general fund. The next \$5 million goes into the tobacco prevention and reduction trust fund. The remaining revenue in excess of \$35 million is deposited into the state general fund.

(2) An exception exists regarding credit card banks, with 95% of the revenue derived from the tax deposited into the state general fund while 5% goes to the county where the bank is located. When there is no physical presence in South Dakota, then 100% is deposited into the state general fund.

(3) Revenues from mining companies licensed after January 1, 1981 are split as follows: 80% to the state, 20% to the county of production (subject to a \$1 million per county cap).

(4) 100% of the tax collected is placed in the environment and natural resources fee fund.

Municipalities

Fiscal Year 2023 Changes

Gary increased their general rate and added a gross receipt tax and Cresbard imposed a general sales and use tax

254 municipalities imposed municipal sales & use taxes.

While cities set their own sales and use tax rates, the department is responsible for collecting the taxes.

Those revenues are then distributed to the taxing jurisdiction based on the amount collected for each city **(shown in Appendix A of this report)**. These municipal sales and use tax revenues do not necessarily indicate the level of economic activity in these areas since municipalities vary in their tax rates and the size of their tax bases.

The maximum municipal sales tax rate in South Dakota is 2%, unless a city meets the provisions of SDCL 10-52-2.4.

Cities may also impose a 1% municipal gross receipts tax (MGRT) which is in addition to the municipal sales tax. The municipal gross receipts tax can be imposed on alcoholic beverages, eating establishments, lodging accommodations, ticket sales and admissions to places of amusement, and athletic and cultural events.

The State of South Dakota and five Indian tribes have entered into comprehensive tax collection agreements that include state and tribal sales, use, tourism, and contractor's excise tax. The state and two Indian tribes have entered into limited tax collection agreements that cover only use tax and contractor's excise tax at certain locations. On Indian country areas covered by a tax collection agreement, the state and the tribe each have the ability to tax certain individuals and certain transactions. All businesses in the Indian country areas are responsible for remitting tax. The tax remitted is then distributed between the state and the tribe based on each tribe's separate tax collection agreement.

Each year, our staff attend special events throughout the state. Whether we are hosting our DOR Annual Assessor School, giving back through community clean up, or staffing a temporary office for the Sturgis Motorcycle Rally, we take pride in serving our customers and the State of South Dakota. The Audit Division is responsible for selecting and performing audits on behalf of the Department of Revenue. The primary purpose of an audit is to verify the gross receipts, deductions, and use tax reported on tax returns, to ensure required record keeping is in place, and to work with auditees to ensure understanding of the tax laws.

FY2023 Audit Metric Distribution by Business Size

The graph below shows the percentage of businesses that fall into five different size categories. This information is compared to how much of the audit time and net assessments are associated with those same taxpayers.

**Audits completed by Gross Receipts category are distributed based on the GR category of the audit's primary license. It does not take in to account the gross receipts reported on non-primary license types.

**If an inactive license is audited, it's typically because it is not the primary license, but it is audited because of its relationship to the primary license.

**Starting from Fiscal Year 2023, this graphic includes only business tax audit license types, excluding special tax, motor fuel, and IFTA/IRP license types.

Common Errors Found During an Audit

Common Sales Tax Errors

- Under-reporting of sales tax due to poor record keeping.
- Exempting sales to taxable customers such as churches and 501(c)(3) entities.
- Municipal tax and municipal gross receipts tax (MGRT) reporting errors.
- Not having valid exemption certificates on file.
- Sales tax charged on construction services subject to excise tax.

Common Use Tax Errors

- Not remitting use tax on goods and services purchased/used.
- Not remitting use tax on items taken from inventory and used personally or in your business.
- Not remitting use tax on ownerfurnished materials (OFM).
- Not remitting use tax on equipment brought in from out of state.
- Use tax paid in error on purchases of services subject to excise tax.

Common Contractor's Excise Tax Errors

- Under-reporting of excise tax due to poor record keeping.
- Not remitting excise tax on ownerfurnished materials (OFM).
- Not reporting excise tax on work performed for Local, State, or Federal Government agencies.
- Excise tax charged on construction services subject to sales tax.
- Not including the excise tax invoiced and collected in reported gross receipts.

Common Motor Fuel Excise Tax Errors

- Errors in reporting due to poor record keeping.
- Not keeping the nine required items on trip sheets. (IFTA/IRP)
- Substituting an invoice or other document for a bill of lading. (Supplier)
- Not including non-taxable exports on returns. (Importer/Exporter/Supplier)
- Incorrect reporting of product authorizations – a product authorization must occur before the rack and bill of lading must reflect the new supplier.

Gaming

In Fiscal Year 2023, total gaming action in Deadwood was \$1,514,701,042 up 0.45% from the previous year. At the close of the fiscal year, there were 2,545 licensed gaming devices, 106 retail locations, and approximately 1,318licensed gaming employees.

Did You Know?

Since its inception in 1987, the Lottery has distributed an impressive \$3.6 billion to our beneficiaries in the State of South Dakota.

Lottery's record-breaking year translates to more than \$178 million to the State's General Fund, which funds local K-12 schools, state universities, and technical institutes.

More than \$3.47 million went to the Capital Construction Fund, which is used to pay for rural water systems, community drinking water, wastewater improvement projects, and recycling and waste disposal programs.

Lotto Tickets

South Dakota currently offers five lotto games. Powerball, Mega Millions, Lotto America, and Lucky For Life are multistate games. Dakota Cash with EZ Match is played only in South Dakota.

At the end of Fiscal Year 2023, there were 626 licensed lotto retailers. Lotto retailers receive a 5% commission for selling tickets, plus varying bonuses for selling larger winning tickets.

Lotto ticket sales were up 37.3 percent from the previous year and net revenues were up 52.6 percent.

The General Fund receives seventy percent in net revenue from lotto tickets. The Capital Construction Fund receives the other thirty percent.

thirty percent.

Instant Tickets

The Lottery launched 33 new instant ticket games during Fiscal Year 2023. Prices for instant tickets ranged from \$1 to \$30, and prizes ranged from \$1 to \$550,000.

There were 636 licensed instant ticket retailers across the state. Retailers receive a 5% commission for selling tickets, a 1% commission for cashing winning tickets for prizes up to \$100, and a 1% commission for selling tickets with prizes of more than \$100.

Instant ticket sales were down 0.1 percent from the previous year, and net revenues were down 31.7 percent.

Lottery Introduces \$30 Ticket

The South Dakota Lottery introduced its new \$30 price point to instant ticket players, which included the chance to win South Dakota largest scratch ticket prize.

The \$550,000 Jackpot ticket launched May 1, 2023. This instant ticket not only features a top prize of \$550,000, but it also has more than \$9 million in prizes! The key number match style instant ticket also has a Bonus section that gives players a chance to instantly win \$100, \$250 and \$500. While players could find the ticket at retailer locations in May, the ticket's launch didn't happen overnight. Prior to introducing the new price point, the Lottery surveyed Players Club members to gauge interest in the new price point.

Our research indicated that fifty-eight percent of respondents were interested in the higher price point, with twenty-one percent indicating that they were very interested. Sixty-one percent of respondents indicated the \$30 price point was their preference.

The ticket received a positive response after the launch. The ticket not only had strong sales to round out the fiscal year, but retailers have shown excitement over the additional price point.

Video Lottery

Video Lottery sales (cash-in) increased 1.2 percent from last year. The average number of active video lottery machines during Fiscal Year 2023 was 10,231, and the average number of licensed establishments was 1,326.

The revenue from video lottery is calculated on net machine income, which is cash-in (sales) minus cash-out (prizes). Net machine income is divided between the state and machine operators on a 50/50 split. One-half of one percent (0.5%) of the net machine income share is retained by the Lottery for administration.

Revenue from video lottery net machine income is distributed to the General Fund.

Video Lottery Industry Continues Growth

Fiscal Year 2023 was another one for the record books in the video lottery industry. The year resulted in a 1.22 percent increase in video lottery funds distributed, which equated to more than \$163 million to the State's General Fund. This was a record in terms of the State's Share of Net Machine Income, edging Fiscal Year 2022's total of \$161,310,594.

A factor that led to the Lottery's sustained success was the continued use of line machines. The line machines, which feature improved graphics, more game styles and bonuses, outpaced legacy machines 6,786 to 3,738 at the conclusion of the fiscal year. The line machines featured quantity and quality, with a \$103.10 to \$62.78 advantage in terms of Net Machine Income per day.

Fiscal Year 2023 was also the second full year of the Lottery's new central video lottery system. In partnership with Light & Wonder, the central system has improved communications that have ensured terminals stay up and running.

The innovations will continue for the Lottery moving forward. Throughout Fiscal Year 2023, the Lottery team partnered with stakeholders in preparation for Ticket In, Ticket Out (TITO) technology. TITO, which launched in July 2023, allows players to insert video lottery vouchers from one machine into another supported machine to redeem credits.

SD Launches New Digital Properties

In November 2022, the South Dakota Lottery updated the website, bringing a new design to the site along with new features. The purpose of this update was to create a site that was more accessible to players while also giving the Lottery access to more tools to enhance it. The new website features easily accessible past winning numbers, where players can choose specific dates and games they would like to view past numbers for. The Players Club was also revamped, allowing an easier entry method for 2nd Chance Drawings.

The following January, the South Dakota Lottery also released a new mobile app. The app not only featured faster load times and improved performance, but also a new and improved ticket scanner. When scanning an instant or lotto ticket, the scanner will not only tell you if you have a winner, but it will also display the amount won. App users can also enjoy features such as winning numbers, the ability to enter non-winning tickets into Play It Again drawings and more. The app is available on most Apple and Android devices.

In addition to the new app and website, the South Dakota Lottery's new customer relationship management system (CRM) has opened up a variety of new content delivered via email or push notification. The new system gives players more control over their correspondence. Players may now choose what types of emails and push notifications they receive, including winning number emails after each lotto draw.

Motor Fuel Tax

Many fuel types, including gasoline, diesel, ethyl alcohol, methyl alcohol, aviation fuel, jet fuel, and liquid petroleum gas (LPG), fall into the fuel tax category. In Fiscal Year 2023, total fuel tax revenues amounted to \$196,782,715. The chart below compares South Dakota's fuel tax revenues for the past five years. Each fuel type is taxed at a different rate as per South Dakota law.

Property Tax

In 2023, South Dakota property owners paid more than \$1.6 billion to fund local governments and provide K-12 education for the state's children. The state does not collect or spend any property tax money. Each county administers its own property tax system. The department's primary role is to assist local governments in making property valuations that are fair and in compliance with the law. The following tables show the portion of the total taxes paid by each classification of property, and which local government received the money.

The following table shows the effective tax rate for agricultural, owner-occupied, and commercial property in a sampling of jurisdictions payable in 2023. The effective tax rate is the percentage of a property's market value that will be paid in taxes. For example, if the effective tax rate is 2%, and the market value of the property is \$150,000, then the taxes will be about \$3,000 per year.

The "Ag" effective tax rate is for the agricultural property in the township around the city listed. The "Other" category includes commercial property, utility property, and residential property not occupied by the owner within the specified city.

Wind Farms

Wind farms pay a nameplate capacity tax and a production tax instead of real property taxes, which get deposited into the Renewable Facility Tax Fund. All of the nameplate capacity tax and 20% of the production tax collected are remitted to the respective counties prior to May 1 each year. The remainder of the production tax is deposited to the State General Fund.

Upon receipt of the taxes, the county auditor allocates the taxes among the school districts, the county, and the organized townships where a wind tower is located. When a wind tower is located in an unorganized township, that portion of the tax is allocated to the county.

The distribution rates are:

- 50% to the school district(s)
- 35% to the county(s)
- 15% to the organized township(s)

For Taxes Payable in 2023, there were 24 wind farms in operation which paid \$15,049,526 in nameplate capacity tax and production tax. The State General Fund received \$4,449,923 and Local Government Entities received \$10,599,603.

The breakdown of the local government taxes were:

- Schools: \$5,299,802
- Counties: \$3,999,898
- Townships: \$1,299,903

Property Tax Transparency Portal

The South Dakota Property Tax Transparency Portal is the one stop shop for property tax information, resources, and laws. This system features the Property Tax Explainer Tool that provides a high level breakdown of some of the levies assessed within a specific jurisdiction, numerous DOR property tax facts, publications, forms, and multiple years of property tax data.

While the state does not collect or spend any property tax money, property taxes are the primary source of funding for school systems, counties, municipalities, and other units of local government. Not only is the portal a great resource for finding property tax information, it also makes available data open and transparent for everyone. Find the property tax portal here: https://sdproptax.info/

Property Tax Limitations

The South Dakota Legislature has enacted two independent systems that limit the growth of property taxes. The first is the state aid to education payments system. These payments effectively replace property taxes for schools that would otherwise be paid by property owners. The second system is the caps placed on the property taxes collected by all levels of local government, except schools. Property tax caps and state aid to education payments have significantly slowed this increase.

State Aid to Education Payments

All property owners benefit from the funding for education provided by the state. The state provides extra revenue for K-12 education that would otherwise have to be paid by property owners. The benefit is provided to the taxpayer through a tax rate reduction for the school general fund levy. The school general fund levy rates for taxes payable in 2024 are set statewide as follows:

> Ag \$1.320/\$1,000 of value Owner-Occupied \$2.954/\$1,000 of value Other \$6.113/\$1,000 of value

Tax Increment Financing

Tax Increment Financing (TIF) is a tool primarily used to redevelop areas or grow a local economy by offsetting the cost of public infrastructure improvements. TIFs can be useful in attracting private investments and businesses, which can translate into more jobs and a growing tax base. TIFs have four classifications, which are shown below along with the number of active TIFs throughout the state. For more information on TIFs, including our TIF Annual Report, visit https://sddor.seamlessgov.com/publications-annual-reports.

Property Tax Caps

State law limits the amount of property taxes that local governments (counties, cities, townships, fire districts, etc.) can collect from their property owners. Market increases in the value of the property within the taxing district automatically decrease the property tax rates upon that property to ensure that the caps are not exceeded. Local governments are limited to the amount of property taxes they collected last year, plus an increase for inflation based upon the consumer price index (but not more than 3%), and for new construction within the taxing jurisdiction.

Lean

SIPOC

Lean is a process improvement approach and a collection of principles and tools used to eliminate wasteful activities that do not add value to our customers. The Department of Revenue carried on this continuous improvement initiative through a variety of Lean trainings and activities. Trainings were provided in-person and online for staff!
